The Company

With the focus on maintenance of truss girder production lines GMS started its business 2008.

Within months GMS could expand its activities to buy and sell lattice girder machines. Now GMS can provide all services around the 2nd hand lattice girder machines business. Clients interested in selling a used machine can be served as well as clients which want to buy a second hand machine.

Global Services

If you want to buy or sell a lattice girder welding plant, maintain your own plant, or use other services of our portfolio,

contact us:
office@gms-global.at
